In 1983, while doing his Ph.D. at Cornell University, S. Leikin became interested in a desktop application that could edit files on a personal computer, rather than a cumbersome terminal emulation application. In 1985 he created the first version of the software now known as AutoCAD, and subsequently released the source code to the public, much as he had done with ADEPT, a text editing program he had developed at the same time. The initial users of AutoCAD were fellow Ph.D. students working on their theses in Cornell's Computer Graphics Lab. In 1987, Autodesk launched AutoCAD, and the first graphic design software for the PC, as AutoCAD R12. Within five years, AutoCAD had become the most widely used CAD application in the world, with over 10,000 corporate and government installations. The AutoCAD history timeline below contains many notable milestones for AutoCAD, from its roots in a Cornell University computer graphics lab, through decades of growth and development, to the current incarnation as a stand-alone product, or as a component of the Autodesk family of software and services. Autodesk, Inc. AutoCAD 1982 Released: December, 1982 AutoCAD is the first desktop computer-aided design (CAD) product. It was written by S. Leikin and released by Autodesk, Inc. in December 1982 as an add-on to Microcomputer Systems Company's PC, running in the default 640x350 graphics mode. The name is an amalgam of two common words for drawing-creating: auto and cadaver. A story goes that Steve's coworker David Brown asked Steve "What kind of term is that?" Steve responded with "Auto-CAD". (Credit: S. Leikin) If you want to download a version of AutoCAD for the free, try our free AutoCAD downloads page, with over 40 different AutoCAD versions, and thousands of new AutoCAD tutorials and articles. Autodesk, Inc. Releases AutoCAD 1986 Released: April 1, 1986 AutoCAD 2.0, a free update of AutoCAD, is released. Autodesk had been growing at an explosive rate since the product's release in 1982. Autodesk, in the span of seven years, grew from just a few employees
