
Resident Evil 4 the Game is about a scenario where you are in a 5-story building in a tall tower (where the boss is). There are zombies in the ground floor. The last floor is occupied by Jill Valentine from the previous game. Use the ladders to go to the next floor, but don't forget to use the ladders to go back. This version of Resident Evil 4 has 8 difficult levels. The game has 4 types of ammunition: Pump gun bullets, consecutive bullets to the enemy, full automatic, infinite clips (unlimited ammunition). From the first level, the game is silent. When I press the '<' button, the music will come in. There are 3 weapons: Pump gun, Pistol, Flamethrower. The Pump gun bullets can fire immediately or at the rear of the enemy (F*ck your target!). The pistol can only fire in the direction of the crosshair. The flare gun is a burning orange that hits the target when it comes close to the enemy. After the introduction, the game will be similar to Resident Evil 1. You have to be careful about health. If you are dead, you will be sent back to the beginning. The game will be hard when the enemies are many. The weapon will be completed when you hit 3 enemies with consecutive bullets. The enemies will be stronger the higher level you are. If you do not find a container of water in any level, you will die in that level. If you are not in range of a gun on the enemy, you won't be able to kill him. Resident Evil 4. 1- Floor 1. This is a place with one level.
