The extensions can be installed via the Install Center. Autodesk Exchange Add-ons: Extensions available in Autodesk Exchange which are installed as extensions in Autodesk applications. I thought it would be fun to do a weekly "newsletter" style post. I hope you enjoy the posts! We had a nice day in town. We went to park and played. We had lunch and watched Batman in the movie theater. We got ice cream at the water fountain. We also visited our great grand-daughter Kaylee. I bought her a frisbee and threw it for her. The kids had so much fun with her. This will be a great week-end. We are going to a festival on Sunday. About Me I love to spend time with my family. I have a son and a daughter. My daughter is the most important to me. I have a wonderful husband. I am a country girl at heart and enjoy the simple things in life. I like to garden, cook, bake, and can knit! I enjoy cooking and taking care of my son and daughter. I like to volunteer at the hospital for the Children's Miracle Network. We have made life long friends at the hospital. My ca3bfb1094
