Physical Geography.. Singh Savindra,. Retrieved 7 March,. HeQ: mySQL - WHERE clause filtering too tight So I'm trying to make some content filtering with a WHERE condition on a MySQL Table. The 2 columns I care about are date and country. This is working as I need it to, however, if the user only enters a date (6/6/2011 - I'll use this example) I get no results back. So I'd like to say "if the date isn't this month" I need to filter out any results. Is there a way to do this? Thanks! A: You can use the MONTH() function: WHERE MONTH(date)!= MONTH(NOW()) If you want to be more strict, use YEAR(): WHERE YEAR(date)!= YEAR(NOW()) (Replace NOW() with the appropriate NOW() function, such as ON MONTH(), in your case.)
