The Elden Ring Game is a Fantasy Action RPG developed by Sweet Blacksmith, released by Brace Productions, and published by Brace Productions. We set out to develop a fun game filled with originality and originality. ABOUT ELDEN RING: The Lands Between is a world divided into the Lands Beyond and the Lands Between. For countless ages, the two worlds have been separated due to the fierce conflict of their rulers. In order to prevent the continuous war of "expansion" from escalating, both sides have been given an execution order. By the end of the War, the lands will be divided in two. All the lands within the borders of the Lands Beyond will be overrun by the forces of the Lands Between, and the Lands Between will be turned into a desolate land where not even an animal will be able to live. A few years have passed. The Lands Between, ready to start a new era of peace, has to protect itself as a defense to prevent the forces of the Lands Beyond from entering and exploiting. The lands beyond the borders cannot attack. If a human being enters the border, he will be executed immediately by the Execution Order. The Border Guards stationed at the border of the Lands Between guard the border with the sole purpose of executing any human being who crosses the border. They work under strict orders, their missions are classified as "Extremely Dangerous" and they never share any information about their missions with the citizens of the Lands Between. When a Border Guard crosses the border, he is given a task according to the mission that he has been assigned. As he executes his duty, he keeps his eyes and ears open and tries to protect the citizens of the Lands Between from any outside threat. He will never stop his execution until the task he was assigned is completed. If he is found out, he will be executed immediately. I am one of those Border Guards, posted at the border of the Lands Between. At the Lands Between, the border is the only place where I can breathe freely. Welcome to the Lands Between.
